

Kulinarik

CAMPUS.OSSIACH

THE GOOD IS SO CLOSE. AND COMES DIRECTLY FROM THE REGION.

What are we particularly proud of at Kulinarik Campus.Ossiach? That we can almost always answer the question about the origin of our products with just one sentence: "Directly from do." After all, we have been a partner of Genussland Carinthia since 2024 and source the majority of our ingredients right here from the region. This means you can enjoy every dish with a clear conscience. We wish you "bon appetit"!

P = Lupines

R = Molluscs

From the meadow in the bottle

The fresh herbs for our syrups are picked sorted by hand and only mixed with citric acid and a little sugar. The lemons used for this come from purely organic cultivation. Only the best ingredients and a lot of love go into the

Colourful mix. Would you like one of our homemade syrups? Our service staff will be happy to advise you and mix your favorite drink fresh for you.

COLA. THE MOST NATURAL THING OF THE WORLD.

FLORA Naturcola | Völkermarkt

Anyone who has to smile at this sentence will appreciate our COLA all the more. Because FLORA Naturcola is made without any chemicals and only from four natural ingredients: spring water, fresh Carinthian southernwood, citric acid and a

little sugar. That's why our cola is just as white as our vest. And can easily do without caffeine. Don't you? Then there's also our HOOBERT Kola as an alternative, which is just as natural, but enriched with caffeine. Manufactured according to an old Salzburg pharmacist's formula and bottled directly in Millstatt.

Long distance relationship?

Not with us.

Short delivery routes not only save time, but also unnecessary Co2 emissions. That's why we only purchase our fruit juices and

mineral water from regional retailers such as APO from Millstatt, who produce their own products and also bottle our HOOBERT Cola or MAKAVA iced tea locally. With fresh spring water from the Nockberge, of course.

Tea from which only traders benefit? Don't come in our Cup.

Fair working conditions and respect for nature are also important to us when it comes to our teas.

That's why only Alveus tea is served in our restaurant. It is organically grown, harvested under fair working conditions and sourced directly from local tea farmers. This ensures that no one else but you benefit from the fruits of your labor. That is why Alveus is also a member of the Ethical Tea Partnership.

Hooray,

we discovered america!

At least for our coffee. Because he comes, very environmentally friendly, by sailing ship across the sea. After all, the BRIGANTES project consciously advocates an alternative transport culture. And that alone with the power of the wind. Also on board: the finest coffee, sourced directly from the farmers, which not only stands for good taste, but also for careful and fair treatment of people and nature.

The good ones

If you know where the grapes grow, the wine tastes twice as good. That is why you will only find hand-picked varieties that are produced by committed winegrowers from Austria, Italy and Slovenia. After all, we always want to give you the clear answer when it comes to origin.
